

WARDA TAYYEB

Islamabad, Pakistan | wtryab@gmail.com | [LinkedIn](#) | [Github](#)

SUMMARY

Data Scientist and AI Engineer with hands-on experience in Machine Learning, Data Engineering, and AI-driven applications. Skilled in Python, SQL, model evaluation, data preprocessing, REST APIs, and scalable AI workflows through internships and projects.

WORK EXPERIENCE

Software Engineer Intern

Dubai, UAE

Solidus AI Tech

Jul 2025 - Dec 2025

- Engineered robust RESTful APIs, designed and deployed a Python/JS admin panel with interactive data visualization to streamline decision-making for management
- Ensured system stability for the Gen6.ai platform through rigorous UI/functional testing.
- Bridged technical communication gaps by producing promotional media (filming/editing) for platform demonstrations and marketing.
- Collaborated with cross-functional teams in agile cycles, effectively ensuring project alignment.

Data Annotator

Remote

Neurageek

Mar 2025 - Apr 2025

- Collected, annotated, and managed over 100 image datasets across 10 repositories to support training workflows for an AI-powered study tool.
- Organized and validated image data to improve dataset consistency, labeling accuracy, and model training readiness.

Data Engineering Intern

Dubai, UAE

Solidus AI Tech

Aug 2024 - Dec 2024

- Pioneered data governance for AI safety by processing 1,500 documents to detect PII (Personally Identifiable Information) and engineering 1,500 anonymized datasets for secure ML training.
- Developed and trained a Machine Learning model for PII detection, utilizing Python to automate data cleansing and enhance privacy compliance.

Tutor

Remote

Storm Academy

Mar 2022- Mar 2023

- Bridged communication gaps by simplifying complex academic concepts for diverse learners.
- Engineered comprehensive, reusable study materials to ensure efficient and standardized knowledge transfer.

EDUCATION

Capital University of Science and Technology (CUST)

Islamabad, Pakistan

Bachelor's in Computer Science

Mar 2022 - Mar 2026

- **Awards: Chancellor's Honor Roll (x3) & Dean's Honor Roll (x4)**
- **Merit Scholarship Recipient (x8)**
- **CGPA - 3.91/4.0 (Top 1% of graduating batch)**
- **Gold Medal Recipient**

SKILLS

- **Programming:** Python, SQL, JavaScript, MySQL
- **Data Science & Machine Learning:** Classification, Regression, Model Evaluation, Data Cleaning, Statistical Analysis, Feature Engineering, Pandas, NumPy, scikit-learn, matplotlib, seaborn, PyTorch, Tensorflow
- **Data Engineering & Development:** REST APIs, Data Pipelines, Data Validation, ETL Concepts, MERN Stack, React.js, Node.js, Express.js, MongoDB
- **Tools & Platforms:** Git, GitHub, Excel, Slack, Trello, Supabase, PowerBI, AWS
- **Soft Skills:** Analytical Thinking, Problem-Solving, Cross-functional Collaboration, Stakeholder Communication

PROJECTS

AI-Powered Medical Diagnosis System (Final Year Project)

2026

- Developed a comprehensive telehealth platform (MERN stack) to autonomously diagnose Pneumonia and Tuberculosis from medical imagery.
- Integrated an Explainable AI (XAI) layer (e.g., LIME/SHAP/GRAD-CAM) to provide clinicians and users with clear diagnostic confidence and justifications, addressing a critical barrier to AI adoption in healthcare.

Breast Cancer Classification Models & their Interpretability

2025

- Built and compared multiple Machine Learning models (e.g., CNN, Logistic Regression) on clinical data, focusing on the explainability required to support medical professionals in clinical decision-making workflows.

LEADERSHIP & COMMUNITY ENGAGEMENT

Little Smiles Orphan Home

Islamabad, Pakistan

Organizer

Dec 2025

- Led a volunteer visit including planning, logistics, and delivery of educational and recreational activities for children.
- Coordinated a donation effort to provide essential supplies.

Riphah International Hospital

Islamabad, Pakistan

Volunteer

Feb 2025

- Collaborated with Quality Control and Biomedical departments, assisting with equipment preventative maintenance (ppm) and daily quality checks.
- Gained direct operational insight into clinical infrastructure.
